

**cctalk® Validators & Converter
for PC-based applications in
Gaming, Ticketing, Vending, Internet, Service.**

RS232 converter

USB converter

Adaptation either

for G-13.mft:

USB converter G-55.0481
(ordering code.25589)

or

RS 232 converter G-55.0480
(ordering code .25588)

for G-40FT

USB converter G-55.0495
(ordering code.27844)

RS232 converter G-55.0492
(ordering code 27643)

As coin validator you can either use G-13.mft or G-40FT with cctalk® interface. The whole documentation of the protocol can be seen at www.cctalk.org.

Note:

For power supply of the cctalk® validator for PC based applications you require a standard 12 V power pack (400 mA; hollow plug 5.0 x 2.1), e.g. NRI power pack with international adapter (ordering code 26482).

In order to test the PC functions of the cctalk® validators you will find a demonstration software as well as a VCP driver (virtual COM port) for Windows® and MacOS to be downloaded free of charge at www.nri24.com.
